PROFESSIONAL SUMMARY

UI/UX Designer and Front-End Developer with a BSc in Computer Science and 2+ years of experience designing web platforms, mobile apps, SaaS dashboards and e-commerce products for clients in Egypt, Saudi Arabia, Canada and Jordan. Skilled in user research, information architecture, wireframing, prototyping and design systems in Figma, with hands-on HTML and CSS to deliver responsive, accessible (WCAG 2.2) interfaces. Delivered 10+ products, including a real-time crowd-monitoring dashboard for the Saudi Ministry of Hajj and Umrah.

CORE COMPETENCIES

User Experience (UX) Design | User Interface (UI) Design | Product Design | User Research | Usability Testing | Information Architecture | User Flows | Wireframing | Prototyping | Interaction Design | Design Systems | Responsive Web Design | Mobile App Design | Dashboard Design | Accessibility (WCAG 2.2) | Arabic / RTL Design | Design Handoff

WORK EXPERIENCE

UI/UX Designer May 2025 – Present
OAF | Egypt

- Design corporate websites, web platforms and dashboards for clients in Egypt and Saudi Arabia, aligned with each client's brand identity and design system.
- Lead the end-to-end design process: user research, user flows, wireframes, interactive prototypes in Figma, usability reviews and design iteration.
- Collaborate with developers on design handoff to ship responsive, accessible, pixel-perfect interfaces.
- Present design concepts to clients and manage feedback rounds through to final sign-off.

UI/UX Instructor (Part-time) Oct 2026 – Present
ANUPET Academy | Egypt

- Teach the Product Design (UI/UX) and AI-Augmented Workflow diploma: UX principles, user research, information architecture, Figma design systems, prototyping and usability testing.
- Delivered the live workshop "Pixels to Pounds" on building a career and freelance income in UI/UX.

Front-End Developer (Remote) Mar 2025 – Aug 2025
Ceptems | USA

- Developed responsive web interfaces for client projects using HTML, CSS and front-end frameworks.
- Translated UI/UX designs into production-ready pages in close collaboration with the design team.

Freelance UI/UX Designer Jan 2024 – Present
Self-employed | Remote

- Designed mobile apps, e-commerce platforms, SaaS dashboards and landing pages for brands and startups in Egypt, Saudi Arabia, Canada and Jordan.
- Managed the full product design lifecycle: research, ideation, wireframing, prototyping, final UI and developer handoff. Conducted UX and accessibility audits of live products with prioritized, documented fixes.

SELECTED PROJECTS

Case studies: yumnashaheen.github.io

- **Hajj & Jamarat Crowd-Monitoring Dashboard** | Ministry of Hajj and Umrah, Saudi Arabia | Dashboard UI/UX: designed real-time dashboards to monitor crowd movement across Mina, Arafat and the Jamarat during Hajj, turning dense live data into clear, scannable views.
- **Rasan** | Accessibility platform, Jordan | UX audit and redesign: built a WCAG 2.2 AAA color system with light and dark modes, rebuilt the landing page and designed a mentor dashboard for beneficiaries, goals and evaluations.
- **Beyond Numbers** | Corporate website, Saudi Arabia | UI design and front-end: designed and implemented the website of a research company serving government clients (Ministry of Hajj and Umrah, TMC, ATC).

- **Tamkeen** | EdTech test-prep platform, Saudi Arabia | Product design: designed school, student and teacher dashboards and a conversion-focused landing page within an existing design system.
- **ANUPET** | Luxury pet e-commerce platform | UX audit and UI: audited vendor and admin pages and rebuilt them on a new design system.
- **Dalee3** | Industrial equipment website, Saudi Arabia | Web design: redesigned the Arabic (RTL) home page for printing machines, spare parts and maintenance requests.
- **Zad Hub** | Catering marketplace, Saudi Arabia | UX research: market sizing, competitor analysis, three personas, empathy maps and customer and vendor journeys.
- **Between City** | Ride-sharing web platform, Canada | UX design: user flows for ride booking and management, vehicle profiles, notifications and peer-to-peer interactions.
- **Banan** | Mobile e-commerce app, Egypt | End-to-end UI/UX: research, wireframes, prototype and final UI with an Arabic visual identity.
- **Perla and Dressin** | E-commerce websites, Canada and Egypt | UI design: brand-led shopping experiences for jewelry (Perla) and fashion (Dressin).
- **ChromoSphere** | Graduation project, Tanta University | UI/UX design: cybersecurity human-risk-management platform; turned threat logs and phishing-simulation data into clear analytics dashboards.

EDUCATION

Bachelor of Science in Computer Science 2022 – 2026

Tanta University, Faculty of Computers and Information | Egypt | GPA: 3.67 / 4.0

CERTIFICATIONS

UI/UX Design Diploma | Egypt Digital Pioneers Initiative (DEPI) | 150 hours

TECHNICAL SKILLS

- **Design Tools:** Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator
- **UX Methods:** User Research, User Interviews, Personas, Empathy Maps, Journey Mapping, Competitor Analysis, Usability Testing, UX Audits
- **UI Design:** Visual Design, Typography, Color Systems, Design Systems, Component Libraries, Design Tokens, Prototyping
- **Development:** HTML5, CSS3, Responsive Design, C++, Python, Databases (SQL)
- **Workflow:** Agile, Developer Handoff, AI-Assisted Design Workflows
- **Soft Skills:** Client Communication, Project Management, Teaching and Mentoring, Problem-Solving, Attention to Detail, Time Management
